About Platform Markets Group

Founded in 2021 by the team responsible for some of the most highly acclaimed events in data centres and digital infrastructure, Platform Markets Group has quickly gained a reputation as a premium content led knowledge partner for companies across the digital infrastructure and data centre spectrum.

Our acclaimed events series offer exceptional experiences for partners, attendees and speakers. With the highest production values in the industry, a focus on quality over quantity and a dedication to delivering future thinking expertly curated content, our partners can be confident that they are aligning their brand with a company dedicated to staying at the forefront of digital infrastructure innovation.

Vision

To be the most trusted and influential global platform where senior leaders in digital infrastructure shape the future of the industry through insight, dialogue, and strategic connections.

Mission

We deliver premium, content-rich experiences - from flagship events to thought leadership initiatives - that connect decision-makers, innovators, and investors in digital infrastructure. By curating authoritative content and fostering high-level networking, we empower leaders to make informed decisions that drive industry growth.

Values

Excellence in Content

We lead with substance, ensuring all output is informed, relevant, and impactful.

Integrity & Trust

We maintain the highest standards of professionalism, accuracy, and impartiality in all we do.

Exclusivity with Purpose

We serve a selective audience to ensure meaningful engagement and valuable outcomes.

Collaboration & Connection

We create environments for open dialogue, shared insight, and meaningful relationships.

Forward Thinking

We anticipate trends and bring future-focused perspectives to the present.

Our Events

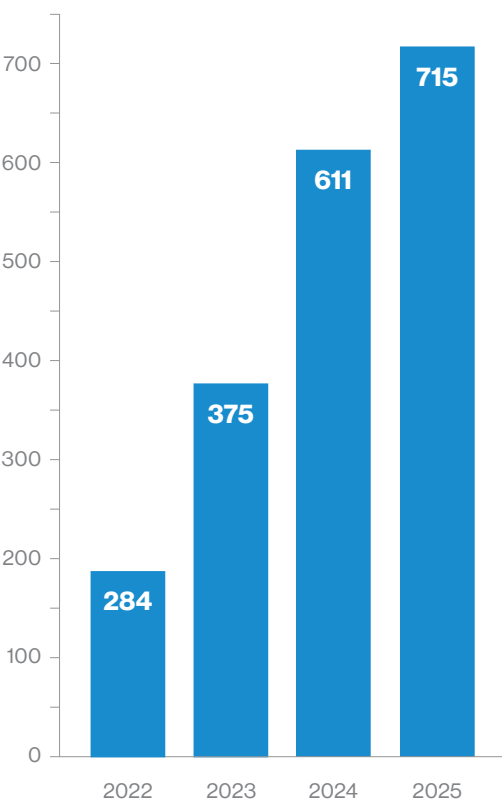

“

Platform Markets Group brings together key stakeholders in digital infrastructure - investors, owners, enterprises, and tech experts! Our global forums zero in on data centers, digital infrastructure, power, and ESG as lucrative investment opportunities.”

DEBORAH MCGARGLE
EV.ENERGY

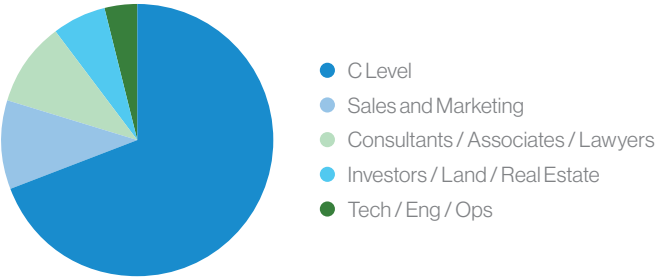

Audience Profile*

2025 has seen phenomenal growth across all our events. A decision has been made to cap the number of attendees at our flagship event, Platform Global in the region of 700 attendees.

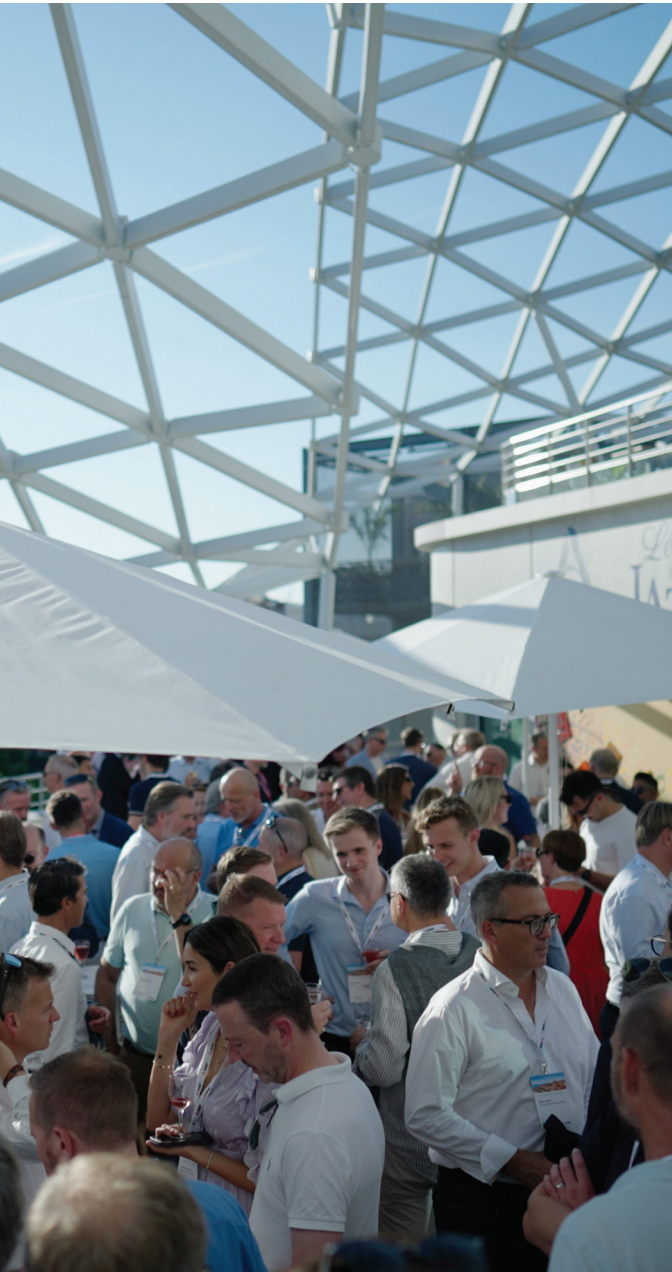

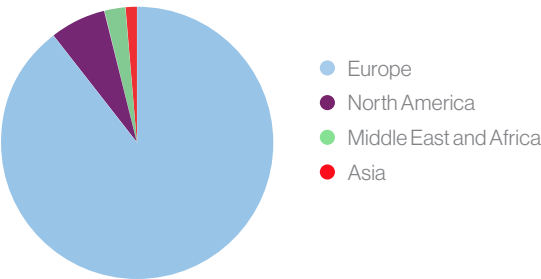

* Platform Global 2024

C Level attendees increased from 55% in 2023 to 69% in 2024.

In 2024, attendees were primarily from Europe. Figures from 2025 show an increase in attendees from APAC and USA as well as better representation from across the whole of Europe.

Our flagship event, Platform Global has gained a worldwide reputation as offering the best event experience on the calendar for senior leaders in digital infrastructure and data centres.

Fully sold out in 2024, and this year attracting 700 industry professionals, almost 70% at 'C' level, our focus on quality content and quality networking ensures a premium experience for partners, speakers and attendees across 3 days.

With a programme of uniquely curated content and over 100 expert speakers, the event is renowned for offering true insight into the issues and opportunities for investors, operators, real estate professionals and consultants across the digital infrastructure ecosystem. Our unique approach to providing high end networking opportunities means that every partner, speaker and attendee has access to their next investment, partnership or deal at the event itself.

2026 sees the 5th anniversary of the event so expect a truly unique event experience!

“Platform Global in Antibes, again exceeding expectations in terms of people, content, weather and opportunities. A big thanks to the organisers and a shout out to all the wonderful people making work feel like play!”

ANNIKA BREBION
SCHNEIDER ELECTRIC

! PLATFORM GLOBAL AWARDS

The Platform Global Awards offers an opportunity for companies and individuals to have their achievements recognised by the senior leaders in the sector.

Overseen by a hand picked selection of senior experts from across the industry and managed by an awards chair, these awards are truly independent and judged purely on merit.

The awards evening offers partners the opportunity to showcase their brand and network in a buzzing yet informal environment.

9 September 2026
Bastide du Roy
Antibes

Attended by the UK's leading investors, operators, government figures and leaders in the digital infrastructure and data centre sector, 2026 will be the third year of our Platform UK event.

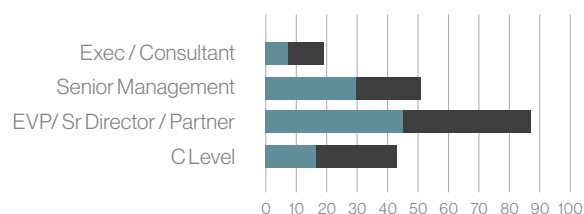

Having doubled in size in just 2 years, the event is now top of the agenda for key stakeholders wanting to stay ahead of the curve and maximise the impact of their UK investments.

Data centres currently contribute £4.7bn in gross added value to the UK economy annually and employ more than 40,000 people. The UK is ranked third globally by number of data centres and is forecast to reach around £18bn in value by 2030. Yet the UK could lose out on billions of pounds in AI investment unless it tackles growing obstacles to data centre development. The infrastructure industry urges the government to move faster on planning reform and energy policy. Inadequate infrastructure could cause the UK's economic security to fall behind.

Development, opportunities and economic benefits in Scotland, Wales, Northumbria, Humber, Midlands, Manchester will also review powered land, planning permissions, connectivity and future outlook.

P | PLATFORM FRONTIER MARKETS

Following on from our hugely successful 2025 Platform Frontier Markets (Central and Eastern Europe) event held in Athens this year, 2026 sees us move the event to Vienna, where analysts predict the next wave of investment will occur in the region.

As the CEE region transitions into a digital powerhouse, this event is expected to attract over 400 high level attendees in addition to an enviable speaker line including the key senior leaders from the region and beyond.

CEE markets have already attracted the entry of global players and other regional groups have established a presence. International hyperscalers increasingly own and operate large campuses, driving market growth and modern infrastructure.

Power and Grid Availability and securing reliable, scalable access to electricity is the primary constraint for traditional Tier 1 markets in Europe. Investors are increasingly selecting Central and Eastern European markets where grid conditions and power access are more favourable, though still challenging.

Andaz Vienna Am Belvedere
Vienna

PLATFORM AFRICA & MIDDLE EAST

Following on from a highly successful Platform Africa event in 2023, 2026 sees us introduce Platform Frontier Markets, Africa & Middle East to our events portfolio.

As one of the most talked about regions globally, MEA has witnessed increased growth and interest over the past few years and we expect over 400 senior industry professionals and investors at this highly anticipated event.

Africa's continental ambitions to deploy a robust, efficient network of AI data centres is hampered across the 54 nations by a range of issues such as energy supply and reliability, regulatory hurdles, infrastructure limitations, and talent gaps. Sustainability is also a growing concern, as some countries pursue renewable energy sources to attract investment.

In contrast GCC states have expanded significantly with KSA and UAE leading in AI campus developments. Middle East investment in African data centers is accelerating rapidly, with market reports suggesting more than \$15 billion in new investment expected to flow into upcoming data centres across the Middle East and Africa (MEA) by 2027. Investment is driven by AI, cloud adoption, and sovereign digital growth strategies, with Middle Eastern investors leveraging competitive land and energy costs, regional development banks, and policy incentives.

“Well done to the team. It was a great event and I specially enjoyed discussions around Africa and to see it's a market taken seriously now.”

GUY WILLNER, IX AFRICA DATA CENTER

28-29 October 2026

Four Seasons Hotel

PARTNERSHIPS 2026

Why partner with Platform Markets Group?

AUDIENCE REACH & ENGAGEMENT

Rich engagement before and after each event via the Platform Markets Group channels.

Further engagement via the unique option to contribute to our acclaimed thought leadership series 'Platform Insight' - positioning your brand as an innovator in this sector.

Global and local reach ensuring your brand is visible in a high number of territories to the right people at the right time.

Access to an enviable number of quality attendees at each event (almost 70% at C level), from across the digital infrastructure ecosystem including investors, operators and senior decision makers.

“Another great event, more exclusive C level audience, good networking and content.”

NEIL CRESSWELL
VIRTUS DATA CENTRES

BRAND PRESENCE

Your brand will be aligned with a premium event offering quality content and quality networking solidifying your own positioning.

A limited number of partnership offerings at each event ensures that your brand stands out from the crowd at all touchpoints.

As we have no exhibition, there is little additional 'noise' to detract from our partner branding.

We also can customise benefits including branded experiences, and give-aways to maximise impact based on your needs.

“A fascinating get together of some of the most prominent figures in the data centre sector.”

RICHARD LUDWIG
ALANTRA

THOUGHT LEADERSHIP

By partnering with Platform Markets Group, you are already aligning your company with a brand globally recognised for thought leadership.

Amplify your brand's role in shaping the future of our sector via a presence on our acclaimed programme of content.

Share insights through a range of panel discussions and keynotes.

Bring influential content to demonstrate your leadership in market thinking and ideas.

“Best global data centre event with high level people and comfortable environment for establishing new relationships.”

DAVID GYULNAZARYAN,
IMPLEON
