# IFTA 2026 VENUE

One Moorgate Place is located in the heart of London, situated between London Liverpool Street, Bank and Moorgate. Additionally, it is only 8 minutes away from London City Airport making it the ideal location to host our conference.

Although a grade II listed building, One Moorgate Place continues to move with the wants and needs of the events and conferencing market and maintains to keep up with technical developments of the 21st century.

# Welcome

The Society of Technical Analysts (STA) is thrilled to be hosting the 2026 IFTA Conference in the City of London.

**The Society of Technical Analysts (STA) is thrilled to be hosting the 2026 International Federation of Technical Analysts' (IFTA) Conference in the City of London.**

IFTA 2026 brings together the world's leading experts in technical analysis, quantitative trading, and financial markets to explore cutting-edge strategies, modern applications, and emerging trends. We will be using our relationships with other financial organisations here and overseas to market the conference globally and attract delegates from all over the world.

In addition to the delegates that will attend the conference, there will be an online global audience watching via live stream.

As one of the world's leading financial hubs and top travel destinations, London offers the perfect backdrop for this prestigious international event. With its seamless blend of historic charm and modern innovation, the City guarantees all participants an unforgettable experience – both during the conference and the social events.

# IFTA 2026 - London Calling! The Next Wave in TA

Over two-days, the 39th Annual IFTA Conference brings together the world's leading experts in technical analysis, quantitative trading, and financial markets to explore cutting-edge strategies, modern applications, and emerging trends.

As AI moves apace we ask how technical analysis will adapt in the AI era, how trading strategies will evolve and explore the significant risks and opportunities ahead. Hear from industry-leading experts on cutting-edge AI and quantitative methods, actionable trading strategies and how to manage risk in uncertain market conditions.

Headline speakers (right) include **Perry Kaufman**, Kaufman Signals; **Linda Bradford Raschke**, **Zoe Bollinger**, Bollinger Bands and **Robin Mesch**, Robin Mesch Associates.

This exclusive global event brings together an enthusiastic and diverse group of up to 200 delegates as well as gaining exposure to a targeted and influential global community of over 7,500 traders, investors, quants and financial professionals.

**Society of Technical Analysts**  
A Professional Network For Technical Analysts

**The Society of Technical Analysts (STA)** is recognised worldwide as one of the largest and most widely respected not-for-profit organisations which trains and accredits members of the investment community, from industry professionals to private individuals, interested in the study of technical analysis.

Members come from across 50 countries – India, Malaysia, Australia, US, Canada, Europe to name just a few. We have been setting the standards in technical analysis for 50 years and have been teaching our professional technical analysis courses for over 25 years, including teaching students at King's College London.

As our courses are delivered online you can study wherever you are in the world and become an accredited Technical Analyst.

Our two-stage Diploma qualification is accredited by the International Federation of Technical Analysis and the Chartered Institute for Securities & Investments (CISI). On passing both levels, candidates can apply for the Certified Financial Technician (CFTe) certificate.

**The International Federation of Technical Analysts (IFTA)** is a globally recognized non-profit organization, founded in 1986, dedicated to promoting technical analysis worldwide. It serves as an international network of market analysis societies and associations, connecting professionals from 24 countries.

IFTA aims to foster the exchange of knowledge, best practices, and innovations in technical analysis. IFTA supports its members by encouraging research, education, and networking while upholding the highest professional and ethical standards in financial analysis. The organization provides a global platform for knowledge exchange and professional development for market analysts worldwide.

IFTA offers internationally recognized certifications that demonstrate expertise, professionalism, and ethical standards in technical analysis: the Certified Financial Technician (CFTe) and Master of Financial Technical Analysis (MFTA).
